

UNLOADER® ONE OTS

Unloader One OTS couples the functionality of the Unloader One with off-the-shelf convenience, making it ideal for patients who don't require a custom orthosis. As with the custom model, this lightweight brace preserves the clinically-proven Össur® Unloader 3-Points of Leverage design by incorporating Dual Dynamic Force Straps¹ that are easily finetuned via a Dynamic Force Control System². Quick Fit Buckles³ simplify application and removal, while flexible shells and breathable liners, coated with bio-inert Össur Sensil® Silicone⁴ improve comfort and reduce migration, ensuring patient compliance.

Recent research demonstrates that Unloader One reduces pain, improves function and decreases the use of pain medication.*

INDICATIONS

- Mild to severe unicompartmental osteoarthritis
- Unicompartmental knee conditions requiring load reduction, such as Articular Cartilage Defect Repair, Meniscal Cartilage Repair, Avascular Necrosis, or Tibia Plateau Fracture
- Thigh circumferences of 13.5" (34.3cm) to 29" (73.5cm) and calf circumferences of 9.8" (24.9cm) to 24" (61.5cm)
- All non-contact activities
